# Saving water my way

Think about all the ways water flow is reduced in our taps and used in our community. Design your own water saving device to use in the home or community.

Use the space below to draw your design and label the materials needed.

**Definition: What is it called?**

---

**Explanation: How do you use it?**

---

---

---

---

**Evaluation: How is water conserved by using it?**

---

---

---

---
