

# Point Peron Tower

## Upcoming works Saturday 16 December

### What is happening in your area?

As you may be aware, we have started constructing a new transition tower at the Water Corporation site near the Point Peron Boat Ramp with our contractor SRG Global. This upgrade will ensure we can continue to safely manage treated wastewater in your area. The work is running smoothly and to the expected timeframes so far.

The next stage in construction is a large concrete pour at the tower's base, which will require significant truck activity to deliver the concrete. Please see the map overleaf for the works' area.

### When: 2am until 6pm Saturday 16 December 2023

### How will this impact me?

This work must commence early in the morning due to the risk of concrete cracking if poured in the heat of the day. Saturday works will avoid traffic congestion for Garden Island and nearby businesses, which are busiest weekdays before 8.30am.

You might notice some increased truck movements, lighting, and low noise over this period. Your water supply will not be interrupted.

### Thank you

We are committed to minimising impact on our Point Peron community as much as possible, however we understand this may still be impactful for those who live and work here, and we apologise for any inconvenience. Thank you for your patience and cooperation while this necessary work is carried out.

### How can I get more information?

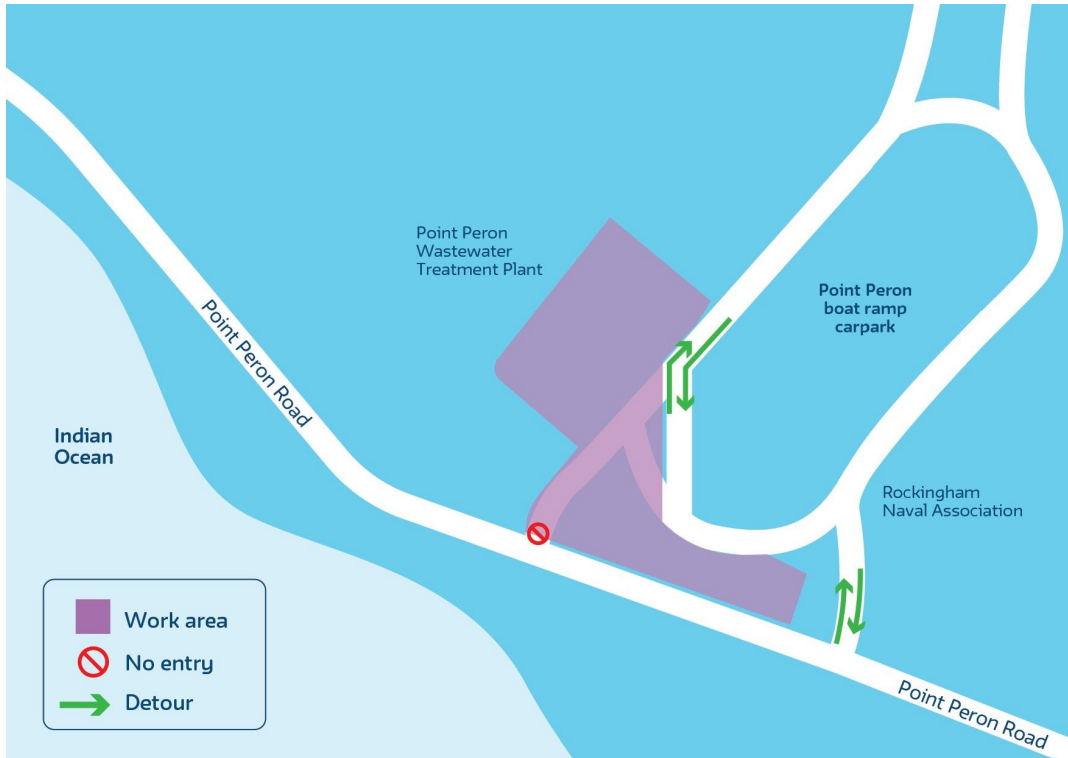

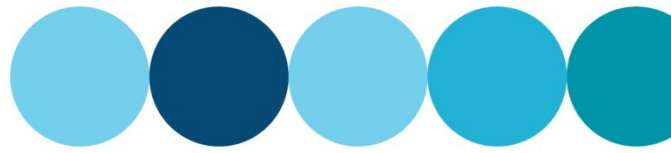

If you have issues onsite, please contact:

- **SRG Global Superintendent Michael Godden on 0439 731 896**
- Alternatively, SRG Global Project Manager Bogomil Kovachev on 0400 847 046

For any questions on the work at Point Peron, please contact:

- Water Corporation Community Engagement Senior Advisor Lisa O'Neill at [lisa.oneill@watercorporation.com.au](mailto:lisa.oneill@watercorporation.com.au)
- Water Corporation Project Manager Moe Oo at [moe.oo@watercorporation.com.au](mailto:moe.oo@watercorporation.com.au)

***For faults, emergencies, or security issues, please call our Operations Centre on 13 13 75 (24 hours).***
